Jeff Fyock brought up the idea of a “recognizing program” where the lacrosse program could be recognized at a basketball game halftime (for example). This would educate people about the sport and bring different sports together to support one another at Seneca Valley.

Mike McGoogan brought up the idea about improving how game statistics are being entered. We need to do a better job of this. Some ideas that were thrown around:

Have middle school coaches in charge of the JV/Varsity stats.

Have 4-5 (parents or students) statisticians that can keep the stats of the JV/Varsity players.

Barry will talk to the coaches this weekend and get their input on this subject.

Need a list of all the volunteers and all of their duties (be very specific and detailed) for Lacrosse season.

Meeting was adjourned.
